INTRODUCTION
AND
GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Jacksonville City Directory since 1957), presents to subscribers and the general public, this, the 1963 edition of the Jacksonville City Directory, which also includes Country Club Acres, Forest Grove Subdivision, Forest Hills Subdivision, Long Acres Subdivision and Oak Grove Subdivision.

Confidence in the growth of Jacksonville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Jacksonville to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory Service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the results of their labors will meet with the approval of every user, and that the Jacksonville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:--

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings--a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Jacksonville, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Jacksonville, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To

800163

broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Jacksonville and vicinity.

The Jacksonville Out-Of-Town City Directory Library

Through the courtesy of the publishers of the Jacksonville City Directory, a Directory Library is maintained in the offices of the Greater Jacksonville Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

JACKSONVILLE NORTH CAROLINA

General Review

Jacksonville is located on the scenic banks of New River in the south coastal area of North Carolina, 37 miles southwest of New Bern and 51 miles northeast of Wilmington.

The Government of the City of Jacksonville is the Council-Manager form. The Mayor is elected at large, and the four members of the Council are elected from the four wards of the City. The City Manager is appointed by the Council and is charged with the administration of the City's affairs and is responsible to the Council. To advise and assist the Council and the Manager, there are the following advisory commissions and boards. The Planning Board, The Recreation Commission, Cemetery Commission, and the Zoning Board of Adjustments.

The Jacksonville Daily News is published every weekday afternoon and is distributed in Onslow County by carrier. A subscriber of United Press International News Service, the Jacksonville Daily News covers all Marine, local, state and international news. A Washington correspondent covers Marine Headquarters.

Two modern radio stations serve the Jacksonville area. W J N C has been on the air since 1945 and W L A S opened during 1956. They have always been alert and quick to serve the best interest of Jacksonville and Onslow County.

TV reception reaches Jacksonville from at least four regular stations.

Jacksonville has five fine schools of which three are public primary schools, one public high school and one private primary school. (Catholic)

Jacksonville is truly an example of this nation's greatness in that the freedom of religion is practiced. We have the Methodist, Baptist, Lutheran, Roman Catholic, Presbyterian, Mormon, Holiness, Pentecostal, Jewish, and Episcopal Churches.

In Jacksonville, business firms offering all types of merchandise and services total in excess of 400.

There are over 200 buses leaving and entering Jacksonville daily, the Atlantic Coast Line offers daily freight service.

Tourist accomodations in Jacksonville are numerous. There are hotels and many fine tourist courts.

Jacksonville has a new County Hospital completely equipped with modern facilities to assist our doctors in keeping our citizens in good health. Among the new items is an X-Ray Machine, presented through the local Cancer Society by the citizens and Marines of Onslow County. In addition to its fine surgical and mechanical instruments and machines, the hospital is capably staffed with outstanding men and women who are our doctors, nurses and managerial staff.

The Civic Clubs of the City, with three additional auxiliaries are listed below.

The climate in Jacksonville is classified as mild throughout the year with a temperature seldom below freezing during January, February and March, ascending to 90 and 100 during July and August.

Rainfall. 57.53 inches
Snowfall 7 inches
Mean annual Temperature 62.80°

Metropolitan Jacksonville is one of the fastest growing communities in the State of North Carolina. The growth has been of such proportion that it is almost impossible to give in any concise manner, an idea of all the changes that have occurred and to interpret what all the changes in the civic, social and business life of the City mean to those who live here.

The population statistics for the City of Jacksonville show the reason for the increased services and needs of the Community. As can be seen from the following table, Jacksonville's population has more than tripled in the short time between 1950-1956.

Year	Population
1940	873
1950	3,960
1960	13,491

Onslow County was formed in 1734 from New Hanover County and was named for Sir Arthur Onslow who was speaker of the House of Commons in the British Parliament.

The first Court House for Onslow County is believed to have been located at Court House Bay, six miles from the mouth of New River. The second County Seat and Court House were on Northeast Branch about twenty miles from the mouth of New River where the U. S. Marine Corps Officers Quarters at Paradise Point, Camp Lejeune, are now located.

The third Court House location at Johnstown, named for Royal Governor Gabriel Johnstown, was about 14 miles from the mouth of New River. The town failed to grow and most of the buildings were destroyed by a hurricane in 1752.

The fourth and present site of the Onslow County Court House was named "Wantland Ferry" for James Wantland, who in 1756 donated an acre of land "convenient to many" for the Court House. Four edifices preceded the present structure erected in 1904 and remodeled in 1951.

Records in the Register of Deeds Office at the Onslow County Court House date back to 1713.

President George Washington passed through Onslow County on his southern tour in 1791, enroute to Wilmington. He took breakfast at "Everetts" near Richlands, had dinner at Captain James Foy's at Rick's Run and spent the night at "Sage's Ordinary", in the southern part of Onslow County. President Washington wrote in his diary about this part of his trip.

Two Governors of North Carolina may be claimed by Onslow County.

Edward B. Dudley, elected from New Hanover County, the first Governor elected by the direct vote of the people, served two terms from 1836 to 1841. He was born and reared in Onslow County.

Governor Daniel C. Russell, born in Brunswick County, was the son of two Onslow County natives and spent his childhood at the home of his grandfather, David W. Sander, a member of the Council of State. Governor Russell served from 1897 to 1901.

New River, despite its name, is known to be the mouth of one of the oldest rivers in America. It is the only large river in North Carolina with headwaters and mouth in the same county, Onslow, and it is one of the few rivers of any size in the United States which flows almost due South. Its three forks are also unusual in that they bring little water in to feed the main stream. Another peculiarity is that it seems to be all mouth and nothing much more. The estuary is about 20 miles long and in places three to five miles wide.

Wars have seriously affected the New River Region through their early history.

After the Indian Wars, Spanish Buccaneers and Pirates beset the region. During the Spanish invasion in the 1740's, prisoners were brought into the Onslow County Section through Bear Inlet.

Militia men were trained for the French and Indian War and for the Revolutionary conflict in the New River Area.

Onslow County residents had courageous parts in the fight for freedom and independence.

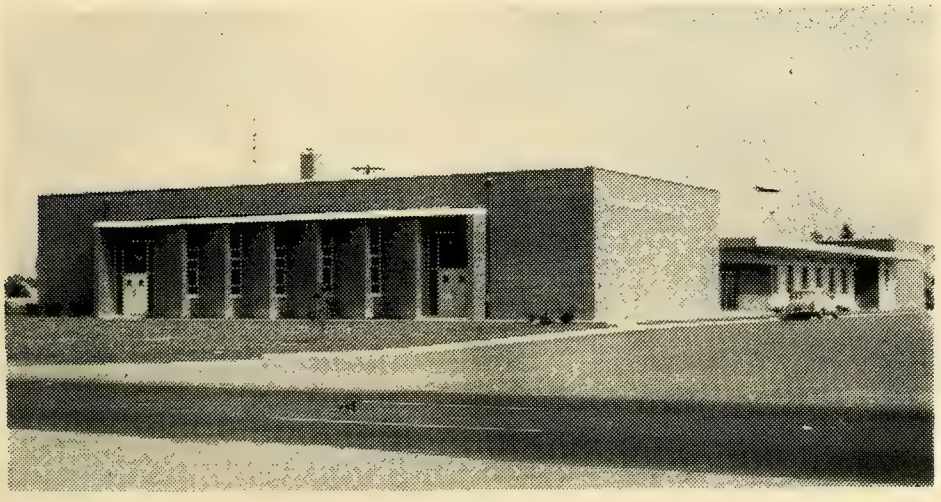

Within two years after the creation of the U. S. Marine Corps, Marines were on duty in the coastal area, being assigned to the privateer Sturdy Beggar of New Bern in 1777. They sailed against two English rigs which had arrived within the Bar on the Carolina seashore and captured several vessels.

In 1941, at the outbreak of World War II, the area around Jacksonville was again the scene of U. S. Marines on duty. Camp Lejeune was originated and named for the famous General Lejeune. Camp Lejeune is one of the world's largest amphibious training bases, covering an area of 173.8 square miles. Camp Lejeune starts a mile from the center of Jacksonville and extends to the Atlantic Ocean. The Base is a city in itself and is completely self sufficient. It has its own power plant, garbage and disposal plant, water treatment plant. Its buildings, which number in excess of 400, are permanent structures of steel, brick and concrete. It is beautifully landscaped with azaleas and native flowers. Camp Lejeune offers its visitors an unparalled view of America's defense strength in its natural scenic beauty.

AN IDEAL PLACE TO LIVE

Jacksonville can be your home while you hunt and fish in the beautiful forests, rivers, creeks and ocean that are in and border Onslow County. In our forests and plains there are bear, deer, quail, rabbit, wild turkey, duck, geese and many other game birds and animals to be found.

The City is situated on beautiful New River, which has been known by many generations as fresh water fisherman's paradise. The great game hunting reserve known as Hoffman Forest covers 80,000 acres and almost reaches the City. Coastal highway U. S. 17 runs through Jacksonville.

City Hall

In New River and its creeks, and in the Atlantic Ocean, a veritable treasure of thrills and surprises await the angler with the multitude and assortment of fish to be caught--bass, perch, trout, blues, sheephead, mullet, etc.

There are over ten miles of sand beach bordering the Atlantic Ocean, within easy driving distance from Jacksonville.

The city has its own recreation building which operates daily programs. There is a beautifully equipped USO Club serving the off-the-base needs of the many Marines based at Camp Lejeune.

In addition there are four modern indoor theaters and also three drive-in theaters in the area. Jacksonville also has a new modern country club with a golf course and swimming pool which was completed during 1956.

Don't Contribute to Counterfeiters KNOW YOUR MONEY!

Don't Be Fooled by Forgers KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	*Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	*Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.
	Genuine—Saw-tooth points around rim are even and sharp.
SERIAL NUMBERS	*Counterfeit*—Poorly printed, badly spaced, uneven in appearance.
	Genuine—Figures firmly and evenly printed, well spaced.
PAPER	*Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

WHERE YOU BANK
DOES MAKE A DIFFERENCE..

Thousands of people like to bank at FIRST NATIONAL because they feel so "at home" here . . . because FIRST NATIONAL is managed by Jacksonville people who know and understand local needs . . .

But FIRST NATIONAL is a great deal more than just a hometown bank . . . Through its membership in the Federal Reserve our customers have the important advantage of being able to draw on the services and facilities through membership in the FEDERAL RESERVE SYSTEM.

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

Typical Questions

Your City Directory
Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?
What is his middle initial?
Is he married? What is his wife's name?
Where does he live?
Does he own his home or rent?
Has he a telephone?
Who are his neighbors?
What does he do for a living?
Where does he work?
Is he the "head of the house" or a resident?
Does he own a business? Is he a member or officer?
Who else is in the same business or profession?
Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?
What are the latest population figures?
What is the latest statistical and general civic information?
What are the leading industries and activities of the city?
What are the names and locations of the schools?
What are the churches and where located?
Who are the pastors of the churches?
What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?
Who lives at a given address?
Is there a telephone at the address or nearby?
What is the character of the neighborhood?
Is it a "home-owners" section?
What is the nearest street corner?
What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
Where are the public and office buildings?
If it is a business location, what business?
If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?
What is the correct name and address?
Is it a Proprietorship, Partnership or Corporation?
Who are the partners, owners, or officers?
Who else in same or similar lines?

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

THE PUBLISHERS

W L A S

Is Jacksonville's

No. 1 Salesman — Because

. . . . More people listen to WLAS than any other medium in the Jacksonville area. Surveys prove this statement! The most recent authoritative survey again puts WLAS well out in front!

WLAS announcers have convincing sales voices, trained to do a job which is preferred by listeners . . . and they get results for the advertisers!

CAUTION....

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1963

INCLUDING COUNTRY CLUB ACRES, FOREST GROVE SUBDIVISION, FOREST HILLS SUBDIVISION, LONG ACRES SUBDIVISION AND OAK GROVE SUBDIVISION

Copyright, 1963, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both side of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc. does not appear, the designation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide,* where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.
